NISHANT KUMAR SINGH

TECH LEAD | REACT NATIVE SPECIALIST | MOBILE & FRONTEND SOLUTION ARCHITECT

📝 PROFESSIONAL SUMMARY

Results-driven **Tech Lead** – Mobile & Frontend (React Native, React.js) with **15+ years** of excellence delivering robust, scalable, secure and accessible user-centric high-performance digital enterprise experiences.
Expert in mobile architecture and React Native ecosystems, with proven success across Fortune 500 clients including Verizon, Wolters Kluwer, Sunrise, and Lebara.
Strong problem-solving mindset with a proven track record in leading cross-functional teams, driving digital transformation, and delivering measurable business impact.

🌟 KEY ACHIEVEMENTS

✓ 🔒**99% Security Remediation** - Boosted application security by 10,000+ vulnerabilities fixed at Verizon
✓ 📈**36 Processes Digitized** - Achieved exceptional customer satisfaction; reduced time and manual efforts by 80% and cost by 60% (Sunrise)
✓ ⚡**Improved productivity** - Enabled single-point access to Wolters Kluwer resources, supporting 1M+ users
✓ 🧩 Built centralized SOQL-based communication engine integrating Salesforce over REST APIs (iField)
✓ 📱 **2M+ Downloads in 2 Weeks** - Feature-rich BlueMe app, #1 on App Store Utility
✓ 🏆 **15+ Awards & Achievements** - SO, POB, Bravo, Star, DW, MM and more
✓ 🥇**5× Excellent Ratings** - Consistent top performance at Tech Mahindra
✓ 👥**50+ Associates Mentored** - Team Lead for up to 12 members

🛠️ SKILLS

Frontend: React Native, React, JavaScript, TypeScript | **State Management:** Redux, Redux Saga, RTK | **Architecture:** MVVM, Clean Architecture, Component-Driven Design | **APIs & Data:** REST, GraphQL | **Mobile:** iOS (Swift, Objective-C) | **Styling:** JSX, Tailwind, Bootstrap, HTML, CSS | **Tools:** Git, JIRA, CI/CD, Expo, CLI

🏢 EXPERIENCE

Tech Lead — Tech Mahindra Ltd | Noida | Dec 2016 - Apr 2026

- **Led end-to-end delivery** of **scalable enterprise applications**, improving **performance** and system **maintainability**
- Achieved **99% vulnerability remediation** (10,000+ vulnerabilities) for Verizon, significantly **strengthening application security**.
- **Mentored 50+ developers** and led teams of up to 12, **improving delivery quality and engineering standards**.
- **Established coding standards** and governance frameworks (**GDPR**, **OWASP**), reducing production issues and improving scalability.
- **Collaborated with stakeholders** on requirements, risk assessment, and solution design to align with business goals.
- Drove **cross-functional collaboration across Engineering**, Product, QA, and UX teams for seamless delivery.
- Designed modular, component-driven architecture to **enhance reusability and performance**.
- Implemented **security best practices** and **performance optimizations** for robust and reliable applications.
- Manage and Configure: Apple Provisioning & Profile Management | TestFlight Distribution | App Store Release | APNS Configuration

iOS Tech Lead — Wildnet Technologies Pvt. Ltd | Noida | Nov 2013 - Nov 2016

- Led iOS application development using Objective-C and Swift for multiple client projects.
- Designed scalable mobile solutions and improved app performance and stability.
- Collaborated with cross-functional teams to deliver high-quality applications on time.

Software Engineer — Hytech Professionals Pvt. Ltd. | Noida | Apr 2010 - Nov 2013

- Transformed from trainee to a vibrant developer, recognized with iApp Innovation Award. Developed and maintained iOS applications with focus on performance and usability.
- Worked on REST API integrations and application enhancements.

💼 PROJECTS

Workplace Companion — *Wolters Kluwer, US*

- Supported 1M+ users; built a unified enterprise apps integrating Workday, SharePoint, chatbot and GBS Hub systems.
- Improved employee and partner **productivity by 20%** and improved system accessibility.
- Integrated Azure AD (MSAL), Azure Notification HUB, Firebase, Azure DevOps and Code Push to **reduce release cycle by 25%**.

Tech: React Native, Redux, Azure, RTK, APNS, Accessibility (a11y)

Verizon — *US:*

- Led security initiatives across multiple application brands, **delivered 99% vulnerability fixes** (10,000+ vulnerabilities resolved).

- Worked with SAST, DAST, SCA, and Pen Test tools to identify and **resolve critical security vulnerabilities**.
- **Strengthened application security** posture by implementing secure coding practices and compliance standards.
- Collaborated with cross-functional teams to ensure continuous **security compliance** and **risk mitigation**.

Tech: AEM, React, Fortify, Black Duck, ZAP, OWASP Tools, Pen Test

My Sunrise & MyLebara — *SWZ & UK*

- Built telecom self-care apps for account management, delivering seamless customer experience, **reducing support calls by 60%**.
- Implemented scalable logging, monitoring, and analytics systems to improve observability and issue resolution.
- Integrated Adyen payments and push notifications for real-time user engagement.

Tech: React, React Native, Redux Saga, MVVM, Storybook, Adyen Payments, Push Notifications, Certificate Pinning

Sunrise ID Checker — Switzerland*:*

- Built an award-winning secure digital identification onboarding solution using OCR and third-party integrations (PXL Vision).
- **Digitized 36 business processes** (20 new, 16 existing), **reduced 75% manual effort**, significantly **improved operational efficiency**.
- Enhanced customer onboarding experience with high accuracy and reduced manual intervention.

Tech: iOS, Objective-C, OCR, Digital Identity, PXL Vision, Logging & Monitoring, SSL Pinning

iField App & Buniyad Realtors

- Developed applications integrating Salesforce using SOQL over RESTful APIs.
- Built a scalable communication layer enabling seamless interaction with Salesforce backend systems.
- Improved data synchronization and real-time access to CRM data for business operations.

Tech: iOS, Swift, REST APIs, Salesforce (SOQL)

🧠 TECHNICAL EXPERTISE

🔐 Security, Compliance & Risk Management

- Mobile Security: Root/Jailbreak, Frida/Magisk Detection, RASP
- Network & Code Security: SSL Pinning (Prevent MITM), Code Obfuscation, Secure Storage, JWT, Code Signing
- Security Standards: OWASP MASVS, GDPR Compliance, Security Monitoring (CSD)
- Vulnerability Management: SAST (Fortify, Snyk, Semgrep), DAST (OWASP ZAP), SCA (BlackDuck), Penetration Testing

☁️ Cloud, DevOps & Platform Engineering

- Cloud Platforms: Azure, AWS, Google Firebase, Salesforce
- CI/CD & DevOps: Azure DevOps Pipelines, Git, Bitbucket, JIRA, Confluence
- Enterprise Integrations: Azure AD (MSAL), Intune SDK (MAM), Push Notification Hub
- Agile Delivery: Scrum, Continuous Integration & Deployment

🏗️ Architecture & Engineering Practices

- Architecture Patterns: MVVM, Clean Architecture, MVC
- Design Principles: Component-Driven Development, Modular & Container-based Design
- Distributed Systems: Microservices, Micro Frontend Architecture
- Performance Engineering: Scalable systems, logging, monitoring, and optimization

🔗 APIs, Integrations & Payments

- APIs: REST, GraphQL, Apollo, SOAP
- Integrations: Salesforce (SOQL over REST), AEM
- Payments: Adyen, PayPal, Stripe, Authorize.net
- Authentication: OAuth 2.0, MFA, Biometrics, JWT, Social Logins

📊 Analytics, Monitoring & Accessibility

- Monitoring & Crash Reporting: Firebase Crashlytics, Bugsnag, Instabug
- Analytics: Adobe Analytics, Google Analytics
- Logging: Centralized logging architecture implementation
- Accessibility: WCAG/ADA Compliance, VoiceOver, TalkBack, Accessible UI Components

🛠️ Tools, Platforms & Ecosystem

- Development Tools: VS Code, Cursor AI, Xcode, Android Studio
- Platforms: iOS, Android, Web
- Apple Ecosystem: Provisioning, TestFlight, App Store Release, APNS

🏆 AWARDS

- 5× **POB** | 2× **Bravo** | **Star Award** | **Standing Ovation**
- **Digital Warrior** | **Meritorious Mentor** | **iApp Innovation**
- Multiple **Client & Team Excellence Awards**

🎓 EDUCATION - B.Tech, *Information Technology* – (*UPTU), 2004-2008*
