PROFESSIONAL SUMMARY

Tech Lead - React-Native & ReactJS leveraging **15.6+ years of experience** in frontend app development. Specialization in mobile app solution design within React Native, JavaScript, React, iOS and related technologies. Aim to drive innovation and deliver scalable, secure, performance optimistic enterprise apps. Strong leadership skills, team collaboration, driving digital transformation projects, and ensuring security compliance for global clients in telecom, real estate, productivity, utility, e-Commerce and in-house enterprise domains application.

Passionate about: Problem Solving | Decision Making | AI Driven Development | Component Driven Development | Accessibility | Code Quality | Modularity | Scalability | Reliability | Reachability | Security-First Mindset | Leadership & Learning

EXPERIENCE

- Tech Lead, **Tech Mahindra**, Noida — (Dec 2016 - Present)
- iOS Tech Lead, Wildnet Technologies pvt ltd, Noida — (Nov 2013 - Nov 2016)
- Software Engineer, Hytech Professionals pvt ltd, Noida — (Apr 2010 - Nov 2013)

ROLES, RESPONSIBILITIES & LEADERSHIP

Project Leadership & Agile Delivery: Led end-to-end system and solution design, defined mobile app architecture, deployment strategy and CI/CD (Auto Delivery), sprint planning, demos, retrospectives, and stakeholder alignment to ensure on-time high quality delivery of projects.

Technical Strategy & Quality Assurance: Defined coding standards and best practices, performed regular code reviews and systems testing, and established governance frameworks for maintainability, scalability, performance, and security.

Team Leadership & Mentorship: Mentor and coach team members through pair programming and knowledge-sharing, lead associate training sessions, and encourage continuous learning in line with T-shaped skill development.

Client Collaboration & Value Addition: Conducted requirements analysis, risk assessments, crafted HLD/LLD documentation, maintained open communication channels with stakeholders and communicated progress, risks, solutions and recommendations to enhance customer experience and business value.

Communication & Cross-Functional Collaboration: Collaborate across Engineering, Product, QA, Backend and UX teams; delivered regular technical status updates, written documentation, and stakeholder reports to align on delivery progress and goals.

Programming & Code Quality: Designed, developed, and deployed scalable applications following industry-standard coding practices, modularity, reusability, exception handling, and performance optimization.

Security & Performance: Ensure quality control measures, security best practices, and performance optimizations to maintain robust and secure codebases.

PROJECTS

Verizon — US: Achieved 99% vulnerability remediation in web app brands across security tools.

Sunrise ID Checker — SWZ: The most award winning customer onboarding app, achieved high cost efficiency and great customer experience by digitising 36 new or existing processes.

My Sunrise & MyLebara — SWZ & UK: Built telecom self-care apps for account management and great customer experience. Design and implement scalable logging and monitoring systems.

Workplace Companion — US: Unified access to Wolters Kluwer resources, boost employees & partners efficiency. Integrate Azure AD Authentication, Azure Notification HUB, APNS.

iField App & Buniyad Realtors — In-House: Built Salesforce SOQL communication over restful web services becomes the app backbone to interact with Salesforce seamlessly.

BlueMe — *Bluetooth Utility App*: 2M+ downloads, top-ranked on app Store, feature loaded app.

TECHNICAL SKILLS

React Native, JavaScript, React, Frontend development, Accessibility, TypeScript, Redux, Functional Components, Hooks, HOF & HOC, Suspense & Lazy-loading, REST APIs, GraphQL, JSX, HTML, CSS, iOS, Swift, Objective-C, Apple Dev Account Mgmt.

SOFT SKILLS

Communication Collaboration & Teamwork

Adaptability & Flexibility

Problem-Solving

Associate Leadership

Team Building & Mentoring

Build Personal Connect

Trust and Respect

CORE COMPETENCIES

Mobile Solution Design

Frontend Architecture Design Patterns

Architecture Decisions Making

Branching and Automation Strategy

Agile Project Delivery

Cross-Functional Collaboration

Microservices & API Integration

Security Compliance

Performance Optimization

Security Compliance & Risk Management

Performance Engineering & Optimization

Scalable Application Delivery

Analytical Thinking

Code Quality & Best Practices (Code Reviews, Standards, Governance)

Team Leadership, Mentoring & Resource Management

Client Collaboration & Stakeholder Management

Upskilling & Reskilling in Emerging Technologies and Frameworks

AWARDS

Several Times - POB, Bravo, Star, Standing Ovation, Digital Warrior, Meritorious Mentor, iApp Innovation, Team level & Individual Awards ...
