Professional Experience

- **Tech Mahindra Ltd.** (Tech Lead) - Since 16 Dec 2016
- Wildnet Technologies Pvt. Ltd. (Tech Lead) - 11Nov2013 – 15Nov2016
- HyTech Professionals India Pvt. Ltd. (SE) - 22Apr2010 – 08Nov2013

Professional Summary

Tech Lead - React-Native leveraging **15+ years of experience** in frontend app development. Specialization in mobile app solution design within React Native, JavaScript, React, iOS and related technologies. Aim to drive innovation and deliver scalable, secure, performance optimistic enterprise apps. Strong leadership skills, team collaboration, driving digital transformation projects, and ensuring security compliance for global clients in telecom, real estate, productivity, utility, e-Commerce and in-house enterprise domains application.

- Proven ability in cross-platform mobile app solution design, security implementation, and performance optimization.
- Strong track record of leading digital transformation projects for global clients in telecom, real estate, and enterprise domains.
- Proficient in developing and implementing scalable, modular, and secure enterprise applications.
- Experienced in full life cycle app development, from requirement analysis and design to deployment and management.
- Led teams effectively, providing mentorship and training to enhance technical and interpersonal.

Passionate about: Problem Solving | Decision Making | AI Driven Development | CDD | Accessibility | Code Quality | Modularity | Scalability | Reliability | Security-First Mindset | Leadership & Learning

Expertise / Skills / Technologies & Tools

- **Primary Job Skill:** **React-Native Mobile** (iOS / Android)
- **Secondary Skills:**
 - **Frontend Web:** [React.JS](#)
 - **Native iOS Mobile:** Objective-C, Swift
- **Other Technical Highlights:** OOPS, Design Pattern, JavaScript, Accessibility, ES6, Redux & RTK, Redux SAGA, State & Props, Functional Components & Hooks, [TypeScript](#), Suspense & Lazy-loading, [Storybook](#), HOF & HOC, Fetch, Axios, GraphQL, Apollo Client, SOAP & Rest API Protocol, JSON & XML Data Formats, UI-UX FE Design & Development, HTML CSS & jquery, [Salesforce](#) (CRM), AEM-CMS etc.
- **Security:** [GDPR](#), [SAST](#) & [DAST](#), Fortify, Black Duck, ZAP, Pen-Test, OWASP MASVS, OWASP dependency-check utility, [JWT](#), Certificate Pinning, [CSD](#) (Cyber Security Dashboard) etc.
- **Logging & Monitoring:** Bugsnag, Instabug, G. Firebase Crashlytics, Adobe | Google Analytics etc.
- **Quality Control, Performance & Code Optimization:** Follow Standard Dev Community Practices and [SOLID Principles](#), RN & React Dev Tools, LogBox, Console, ESLint & Prettier, Instrument, Performance etc.
- **DevOps:** Jira, Confluence, Git, Bitbucket, Azure, Jenkins, Workbench, Bugzilla-Bug-Tracking etc.
- **Distribution:** TestFlight, Google, In-House etc.
- **IDE/OS:** Cursor AI, VSCode, Xcode, Android Studio/(iOS/Android/Web)
- **Auth:** OAuth, Usr-Pwd, MFA, Token Based, Biometrics, Certificate Based. (Azure AD-MSAL, Google/Apple/FB Login) etc.
- **Payments:** Adyen Payments, PayPal, Authorize.net, Stripe
- **Methodology:** Agile Scrum Framework (Grooming, sprint planning, daily, review, retrospectives and demonstrations with stakeholder.)

Recent Projects & Responsibilities

- **Verizon** (Security Vulnerability Remediation Project): Based on VCSD (Fortify, Black Duck, ZAP, Pen Test) remediated 99% of app vulnerabilities.
- **Sunrise ID Checker**: Built **most awarded** first of its kind solution for new digital on-boarding experience for Sunrise customers and agents by digitise the customer identification process through mix of ID scans, digital signature, facial recognition and document scanning. This was an innovative leap for Sunrise, with 20 new processes and 16 existing processes digitalise through scan app. Resulting in maximum simplification internally and externally, unified processes in all channels, large cost efficiency and great customer acceptance.
- **MySunrise (SWZ) and MyLebara (UK)**: Built UI-UX & Tracking. Manage account (View, Buy, TopUp, Billing and more) - Self care apps for cust.
- **Workplace Companion (Wolters Kluwer)**: Single point easy access to several WK resources and services via WPC app which improve efficiency, productivity and reachability of WK employees and partners.
- **iField App and Buniyad Realtors**: Built Salesforce communication over restful web services become app backbone.
- **BlueMe**: Transfer data over Bluetooth. Built popular utility app 2+ million downloads within few week and top on app store for 2 weeks.
- **Roles & Responsibilities**
 - Requirement understanding, analyses, plan, design, develop, distribute & manage full life cycle app development.
 - Responsible for on time delivery to meet deadlines.
 - Follow basic coding standards code quality, scalability, modularity, reusability, exception handling including design & implement quality control measures, performance optimisation and security standards.
 - Lead project, Communication and collaborate with cross-functional teams, client & stakeholders.
 - Resource management act as guide, mentor to team on day to day basis, learn technical & people skill and impart training.
 - Other activities: Team handling & management (Timesheet, Leave, Skills, Performance, Trainings, Profile Evaluations etc).
